

AFROSIAB TRAINS

The Afrosiab branded high-speed train runs between Tashkent, Samarkand, Karshi and Bukhara. The electric train was developed by Talgo specialists using the most advanced technology in Spain.

The aerodynamic front design of the electric train allows it to optimize the effect of pressure wave and side wind, reaching maximum speed.

The Afrosiab train has optimal conditions for passenger comfort. All passenger seats are equipped with comfortable armchairs with a reclining back, a table and a footrest, reading lights, a built-in audio-video module and monitors for watching video clips. Above the seats are luggage racks and coat racks. All train cars are non-smoking, the saloons are carpeted. Each car has an information board, which displays information about the route, car number, air temperature in the cabin and the current speed. The windows in the train, equipped with sunblinds, are made of special laminated glass, which provides good sound insulation. Regardless of the time of year and the temperature outside the window, a comfortable microclimate is always maintained in the cars of the electric train.

In the high-speed train "Afrosiab" there are conditions for people with disabilities: the floors in all areas of the train are of the same level, and in the third car there are seats equipped with special fasteners for wheelchairs and a button to call the steward. Nearby there is a specialized toilet.

In the "Bistro" car passengers can enjoy oriental and European dishes, as well as order soft drinks, tea or coffee. Type of the train: high-speed comfortable (made in Spain);

Speed: up to 210 km/hour;

Composition of the train Afrosiab:

2 VIP class cars with 11 seats.

2 business class cars with 26 seats.

4 economy class cars with 36 seats.

1 bistro car.

We offer you the full schedule of the Afrosiab train to and from Tashkent-Samarkand.

Departure	Arrival	Time in way

Davom etish

Attention! To proceed to the next step, you need to go through the standard registration and authorization procedure, specifying the name, surname and e-mail address.

STEP 2 - CHOICE OF CAR AND SEAT

Then on the scheme of the car the place is chosen (light-free, dark-sold, the chosen place-green). Also for convenience, additional services provided in the car are displayed: extra food and bed linen. After choosing a place, the user fills in personal passport data and enters all the necessary information in the appropriate fields. If necessary, you can select the "Add child" function. Thus, an adult passenger can register a child up to five years old in his seat free of charge. Also, if necessary, you can select seats for 3 more passengers and enter all the necessary data. Then you need to click "CONFIRM ORDER".

Attention! The passenger's personal data must correspond to the data specified in the identity document. If you issue an electronic ticket to a country where a passport is required, the ticket is issued exclusively for it (for example, Tashkent-Rybachye). If you issue a ticket outside Uzbekistan with children, then in accordance with the established procedure it is necessary to issue a ticket for a child with a child's passport. If you are a non-resident of the Republic of Uzbekistan, the electronic ticket is also issued on the passport with which the passenger intends to travel. If the personal data in the document are indicated in two fonts (Cyrillic and Latin), the information in the order is filled in Latin font. If the personal data in the document are specified only in Russian, the information in the order is filled in Cyrillic. In case of an error in the personal data of passengers or details of documents proving their identity, you need to make an adjustment before the payment of the order.

Войдите, чтобы быстро заполнить данные пассажиров, которым вы уже оформляли билет.

A printout of an electronic ticket for domestic flights is not required. If you have issued an electronic ticket for an interstate flight, then in accordance with interstate agreements, you need to get a ticket at the ticket offices of the railway station - on a strict reporting form, which will need to be presented at the request of inspectors in other states, as well as for business trip reporting.

Attention! This manual is intended only to help with the issuance of electronic tickets.

For Public offer, we advise you to carefully read the information on the website <https://eticket.railway.uz/lang-en/pravila-ispolzovaniia.html>
